FEATURED PROJECT

Jaquar Bath + Light Experience Centre, Chandigarh: four floors, 55 photographs on hopedesignstudio.in/projects

INFRASTRUCTURE

Five premises, 15,000 sq. ft, with wood, metal and finishing divisions and a technical drawing cell.

Metal division

- CNC laser cutting, 2000 × 4000 mm bed, metal up to 20 mm
- 5-axis CNC bending, sheets up to 3 m
- CNC V-grooving up to 4 m (cladding, profiles, inlays)
- Laser, TIG, MIG and spot welding
- Polishing, buffing, belt grinding; lathe; induction casting

Wood division

- CNC router, panel saw, spindle moulder
- Through-feed and curve edge banders
- Multi-spindle and multi-head boring
- Planers, lathe, band saws, sanders

Finishing & PVD

- PVD: champagne gold, gold, silver, rose gold
- Spray and heated paint booths
- Laminate press, Corian thermoforming
- Laser cutting, engraving and inlay; UV, screen and pad printing

Materials

Natural and engineered wood, plywood, MDF, laminates; stainless steel (304/316), mild steel, brass, aluminium; marble, granite, engineered stone, Corian; glass, acrylic, composites. Custom hardware and fittings made in-house.

SCOPE OF WORKS

- Partitions & wall linings: panelled and veneered wall linings, timber and mdf partitions, acoustic and fabric panels
- Ceilings & features: timber-slat and grid ceilings, backlit and cove-lit ceiling panels, sculpted feature walls and reliefs
- Joinery & storage: reception desks and counters, workstations and storage units, vanities and display plinths
- Metalwork: cladding, profiles and inlays (v-grooved), screens, partitions and railings, frames for glazing and display
- Display & showroom systems: product display walls and niches, plinths, islands and consultation counters, illuminated display bays
- Loose furniture: console, side, centre and dining tables, bar chairs and seating frames, custom furniture to drawing

HOW WE WORK

- Drawings & specifications
- Site survey
- Shop drawings & samples
- Manufacturing
- Quality checks
- Installation & handover

DOCUMENTS WE PROVIDE

- Drawing register and query list (RFI)
- Site survey report; quotation against BOQ
- Shop drawings and sample approvals
- Production tracker; signed QC checklists
- Daily site diary; weekly progress reports
- Snag list and handover file (as-built, care guide)

Exterior metalwork and cladding elements also manufactured; civil and MEP works by others.
